# TURN YOUR MATERIALS INTO MONEY

DOMINATE YOUR JOBSITE WITH A MOBILE  
CRUSHER THAT WORKS AS HARD AS YOU!

**RUBBLEMASTER.COM**

# MACHINES THAT MAKE YOU MORE MONEY

THE MOST VERSATILE AND JOB-FRIENDLY MOBILE PROCESSING EQUIPMENT AVAILABLE

Since 1991, our products are used by successful contractors and aggregate producers worldwide while being the #1 choice for those brand-new to crushing. We look at crushing in its entirety and design best-in-class every step of the way.

## ON-SITE RECYCLING

Eliminate tipping fees, cut trucking hassles, and escape the high cost pressure

## CUSTOM CRUSHING & SCREENING

Material processing services boost revenue and maximize equipment use

## AGGREGATE PRODUCTION

Low costs and easy operation boost profits per ton

# DOMINATE YOUR JOBSITE

LET RUBBLE MASTER TAKE YOU THERE

At RUBBLE MASTER, we understand a smooth operation equals more profit. That's why our mission is to help you dominate your jobsite. No more losing money to high operation costs, buying additional material, or wasting time with traditional material disposal processes. Instead, you take back control of your operations and get the job done right.

## MAXIMIZE PERFORMANCE

Our mobile crushers provide the best throughput capacity in their class without sacrificing mobility. Do more, more efficient.

## A NEW EXPERIENCE OPERATING A MOBILE CRUSHER

Enjoy maximum clarity about the machine's condition and performance, ensuring you get the most out of it.

## TRUST YOUR GUYS AROUND THE MACHINE

We make material processing easy so you can put any operator on our machine with confidence.

## GO ANYWHERE, ANYTIME

RUBBLE MASTER machines are designed with mobility in mind, giving you the freedom to move anywhere, anytime.

# PERFORMANCE WITHOUT THE HASSLE

For more than 30 years, we've designed and manufactured our mobile crushers to deliver best-in-class performance without sacrificing mobility. Although they've grown in size, our design principles have remained the same: build smart, tough, sleek, and versatile machines for recycling and rock crushing.

# GET MORE DONE EVERY HOUR

## WITHOUT CHANGING YOUR PROCESS

The superior geometry and design of our proprietary crusher box and drive give you highly efficient, unrivaled performance. Because the crusher box and auxiliary components come from a single mold, you get more done in a day.

### REBAR LIBERATION AND SEGREGATION

From the infeed to the discharge, everything is designed to reduce material blockages and conveyor belt damages.

### RM RELEASE SYSTEM

Remove crusher blockages caused by oversize pieces such as large concrete slabs. Save valuable time to maximize production and minimize downtime.

# FULL CONTROL AT YOUR FINGERTIPS

## OPERATE WITH THE TOUCH OF A BUTTON

Over the years, we've gained valuable industry knowledge that has shaped how we work. Today, we apply that expertise through engineered best practices, building it directly into our crusher designs to deliver exceptional performance and reliability.

We've taken the complexity out of mobile crushers. That means: no intense training is required, you are not risking safety, and make money from day one.

### INTUITIVE CONTROLS

Simple controls, consistent color coding and clear troubleshooting routines assist operators to be more effective.

### EASY MAINTENANCE

Generous and fast access to engine compartment, screen deck and crushing chamber make light work of your dailies.

# MEET A VARIETY OF SPECS

RUBBLE MASTER impact crushers deliver superior aggregate shape and adjustable gradation. Equipped with an on-board screen and return conveyor, they support closed or open circuit production, offering quick setup changes for versatile material output. Produce many different materials with minimal effort in changing the setup.

### EASY ACCESS TO SCREEN-DECK

Change screen Media with your feet on the ground

### FAST DETACH OF SCREEN-BOX

Screen-box and return conveyor can be removed completely

### 2 WAY SPLIT

Stockpile oversize to the side

### WIDE RANGE OF PRODUCTS

Produce everything from a fine product to 4"- product

### CLOSED LOOP

Spec material in a single pass

### HYDRAULIC FOLDING CONVEYOR

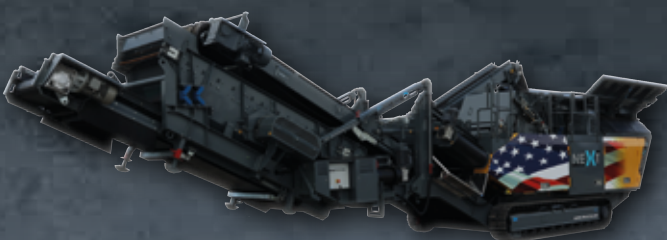

Standard, except RM 70GO! 2.0

### ACCESS SCREEN DECK FOLDS HYDRAULICALLY

**EASY BOOK  
PERMITS**

# MOVE ANYWHERE, ANYTIME

SAY GOODBYE TO PERMITS, ESCORTS, AND LONG SETUPS. FINISH THE JOB BEFORE YOUR COFFEE COOLS.

## UNMATCHED COMPACTNESS

The RM 70GO! 2.0 is our most compact mobile impact crusher with on-board screen and return conveyor that weighs 53,500 lbs and is less than 8' wide.

## MOBILITY ON THE JOB

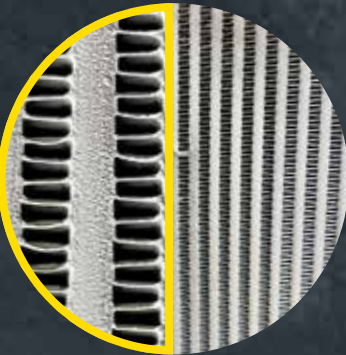

Our Compact Crushers can track and crush at the same time, letting you windrow material without needing extra equipment or space. Perfect for tight job sites or smaller volumes.

# SAVINGS ON FUEL COSTS UP TO 30%\*

WITH OUR DIESEL-ELECTRIC DRIVE

You can't afford to waste money on downtime or high operation costs. Our diesel-electric drives maximize your profits and minimize downtime to keep you crushing.

HIGH ALTITUDES**

\* compared to traditional diesel-hydraulic crushers

# NO SPACE? NO PROBLEM

## PERFECT SIZE FOR ANY JOBSITE

Contractors are facing thinner margins due to an increase in smaller jobsites, neighbors' complaints, and longer trucking times.

One versatile RUBBLE MASTER machine can crush any on-site material volume more economically, from just a few hundred tons to very high volumes, virtually putting money back into your pocket.

HIGH-MOUNT ENGINE

LOW-MOUNT ENGINE

## A COMPACT DESIGN MATCHES THE POWER OF HIGH-MOUNT MODELS

The low-mount engine design ensures maximum accessibility without compromising performance, safety, or mobility. Without a compact machine, you need larger trailers, larger job sites, and climb ladders with power tools and heavy wear parts all the time.

CRUSH DIFFERENT TO DOMINATE SERIOUS PROJECTS

"We rented a RM HS7500 screener to screen our road millings and came away impressed with everything about the machine. So when we needed to upgrade our crusher, the RM 120X was a no brainer for us. Along with the machine design and the support from RUBBLE MASTER we don't have to worry about much downtime."
